Subject: Compiled DB comments
Attachments: Dewey-Burdock Comment Table January 2020.docx; 2019 DB comment log.xlsx; New breccia pipe comments.docx

Hi Valois,

Attached is a Word file that contains all of the public comments on the Dewey-Burdock permits (submitted in 2017 and 2019). We added the 2019 comments to the end of each of the tables we delivered under WA 94, and they all have a letter ID of 8000 or higher. As we agreed, this table has not been subject to senior QA (although Alex did the more technical ones, so this benefits from his understanding of the project). But all of the comment text is in here and searchable.

Also, we did a quick search for new comments about breccia pipes, and there were only a few and they don't seem to bring up anything new (one of which repeats the 2017 form letter). They are in a separate file.

Also attached is the commenter log (as a spreadsheet). It is primarily a work tracker, but may be of use. Note that there are some gaps in the numbering because not all of the numbers appear to have been assigned by the docket. (As I mentioned earlier, for comments in the big PDF, the Letter ID is 8000 + the last four digits of the ID assigned by the docket.)

A few notes (which are also in the log):

- Mike Faith of Standing Rock Sioux Tribe requested a government-to-government meeting with EPA (Letter ID 8254.2).
- Pages 12, 13, 17, and 18 are missing from comment letter 8196.1 (Reno Red Cloud and Richard A. Bell of Oglala Sioux Tribe).
- The attachment referenced in comment 8243 was not provided (it appears to be a failed upload), but the comment is out of UIC scope. Noting this in case you want to reach out.

Please let us know if you need anything else right now.
